ICE 600 Series VoIP Intercom Stations

Description

ICE-600 intercom stations are half-duplex VoIP intercoms that connect to a VoIP capable DXL system. These stations conform to the industry standard SIP protocol and are available with a wide range of standard features.

Stations for both 2-gang and 3-gang electrical boxes can be ordered with a wide range of standard features. Choices include 0, 1, or 2 vandal resistant switches, an LED indicator, a selection of laser engravings, and an enhanced suite of I/O that is comprised of (2) switch inputs, a contact output, and a line-level output. Intercom stations that require non-standard features are also available by custom order.
